Day and one of the very few Holidays that Printers enjoy, the Sentinel Office will be closed and no paper issued to-morrow morning.

A Happy New Year! This cordial greeting, springing spontaneously to every lip and meeting every ear, this morning, reminds all of the departure of the Old and the advent of the New Year. With the Old are buried many sweet and bitter memories, joy and sorrow, fruition and disappointment. With the New are been many bright hopes and good resolves and gay unturpations. The past year has been eminently a prosperous one for our C ty and We have been spined the pestilence which has wasted other cities. We have oscaped the devastating scourge of war. We have been blessed with kindly seasons and abundan crops. We have advanced steadily in wealth population and prosperity. For all theze bounties we owe devont thanks to the Giver of all good things, and we cannot better manifest our gratitude for benefits and blessings bestowed than by making others, less happy and fortunate then ourselves, partakers of our joy, by soothing their sorrows, relieving their distre-s and minis-

tering to their wants. The Old Year went out in unclouded sunshine May the same bright heavens usher in the New, and gild the homes and gladden the hearts of the readers of the Sentinel A Happy, thrice Happy New Year to each and all !

New York, Dec. 24, 1355. Merry Christmas to you all in Wisconsin! and merry be it to all. Why not? Surely in life prezerved, in bounteous scason, in the security of law and in the hope of Heaven, through the merits and sufferings of a merciful Savious-there is that which at this period when the birth of that favior is commemorated, should bring joy to all. Sorrow, indeed, has fallen upon many during the revolving year-for such is the lot of humanity-and disease doubtless has its too numerous victims; and disappointments have cross plan and palpable duty, for the sake of gratied many a path; and crime, too, has darkened ed many a path; and crime, too, has darkened many a fature—but to each and all there is yet hope and time for healing and repairing and repairing and repairing and repairing and the all therefore, who will that it shall be so, this may be a joyous anciversary. Joy and happiness and God's blassing on the new hemes, be with you all. The preparations in our great city are always

very elaborate for this favorite festival, and as schools are all dismissed and advertise all turned loose, the high, gleeful voices of youth and childhood re, ound at every corner and defy the threatening storro-which now looks as though to counterburnes the glories of yesterday (and no climate can furnish a mole levely day on the 20d of Dec. than we had yesterday) we should have snow to-morrow Well, indeed, if it be clear, cian suon—for there is excitement in that rather than directly leet, or the ingrain. Mr. Banks is the candidate of those who stand in opposition.—who were opposed to the repeal of that prohibition, and who are certi-mined to right the wrong which was inflicted up-on the whole country by that act. These men are the representatives of the great political par-ties into which the country is divided. Their supporters vote upon principle at oting for them. The whole responsibility for this protracted ontest rests upon the handful of fectionists who attempt to ignore the issue of the day, or hold it subordinate and sub-erv.ent to their own per-sonal schemes or putsan iesentinents. The fifteen or twenty members who scatter their votes, for the express purpose of preventing an election, are the parties whom the country will hold responsible for the d'egraceful position in which Congress is placed by the course they kase pursued. RADWAY'S READY RELIEF

To BE USED in all cases where there is pain.

The moment it a applied externally, or taken internally, it will allay the most torturing aches, pains, cramps, spasms, burns, scalds, &c., quicker than biorphine, Chloroform, Veratrine, or any other anodyne or remedy that has ever been used by medical men.

It is safer than these dangerous remedies. The public will bear in m'nd that Chloroform, Morphine, Optum, &c. only stille the pain by sixplifying the senses, or that the perceptive faculties lose the power of feeling and that fater the indicence of these narcotics have passed from the system—the pain again breaks forth with its terribic pangs, with rean wed violence.

Redway's Ready Relief stops the pain and removes the cause of the disease that occasions it, it intuses new life into the weak and disease darks of the content of health and strength, in the place of pain, weakness and disease.

As counter irritant, Radway's Ready Relief applied to the surface of the body, where there is any inflammation or congestion, is will instantly scatter the congested blood, equalies the circulation, and he manualism in their most terrible forms, where an application of Radways Ready Relief forms, where an application of Radways Ready Relief will restore the patient case and comfort.

· Phanix Buildings Private Despatch to the Laily Senting

The Message opens with Central American alfairs; considers them the greatest question pending with foreign powers. Matter had been made subject of negociation, through American Minister in London. President states that British Government see no rouson for any interruption of friendly relations, but he thinks otherwise, un less Central American difficulties is speedily set thed. Regarding recruiting business, he says traditional policy of this Government has been not to interfere with beiligenents. Says people of Kansas must be protected without interference from neotile of other states. Defends Nebrask bill. Denies that it was breach faith. Denouneas agitation slavery. Says South got no more than belongs to her. F. A. A.

SECOND DESPATCH.

With particular reference to Slavery and the for with particular reference to Survey and the fu-gitive slave law, the President regards agitation so dangerous to the durability of the Union, and re-grets to see States disaggnd their Constitutional obligations and refuse to obey the laws of Con-gress. He denies that the South has obtained advantages over the North in the federal government, and refers to the ordinance of 1787 and the acquisition of Louisiana to illustrate the balance of power between Freedom and Shvery. He comes down to the amexation of Texas, the repeal of the Missouri Compromise, and argues that the South got no more than belongs to her. He gives an elaborate defence of the principles of the Nebraska Bill. He indignantly denies that it was a breach of faith.

He also refers to grave questions, pending with some foreign Powers, the most important of which is that with Great Britain arising out of the Nicaragna question. It was an understanding dvantages over the North in the federal govern

which is that with Great Britain arising out of the Ricaragna question. It was an anderstanding of the U.S. in making the treaty that all the present States of the former Central American Republic would thenceforth enjoy complete independence, and that both contracting parties enjoyed equally and to the same extent for the present and future—that if either of them had any claim or right in Central America, such claim was unreservedly relinquished by the stipulations of the Conventions, and no domain thereafter would be exencised in any part of Central America by Great Britain or the U.S.

This Gov. consented to these restrictions in regard to a fregion of Country, wherin it had speci-

and to afregion of Country, when it had speci-ped and peculiar interests, only upon the con-viction, that like restrictions were in some sense obligatory on Great Britain. But for this un-ioustanding, the Trenty would never have been concluded by the U.S. doistanding, the Trenty would never have been concluded by the U.S.

Great Britain so construct the Convention as to maintain unchanged all her previous prent misons over the Musquito Coast, and there preventions are founded on the assumption of publical relations between Great Britain and the remnant of Indians on the Coast, entered at a time when the whole country has a colonial possession of Spain. It cannot be successfully controverted, that by the public law of both Europe and America, no possible art of such Indians or their predecessors could confer on Great Britain any pollitioni rights. It however became apparent that Great Britain still continued in exercise of a large authority over all that part of Central America.

Great Britain still continued in exercise of a large authority over all that part of Cennal America, commonly called the Macquito Coact, covering the entire length of Nicaragus and part of Coata Rica. This act of treat R. being contanty to the rights of Central America as understood by this government, has been made subject of negoriat-ing through American Minister in London. These Britain has by repeated and snocessive serts reported and successive Great Britain has by repeated and snocessive acts renounced all pistensions of her 98% and recognized the full and sovereign rights of Spain in most unequivocal terms. Great Britain non reasserts her right to this extent of the Gult roast on the Eastern enter of Nicaragna. The intulierence of Great Britain thought-exerted once in the favor of military occupation of the port of San Juan del Notte, now presents a chim of right to protectorate over the Masquito Indians.

The President inslats that this Government readily denies that at the date of the treaty, Great Britain had any possessions on that coast other than the limit destablishment at Balize. The President states that the British Government 1856! 1856! 1856!

ted territories.

In regard to the late recruiting of Great Britain he says the traditional History of the U.S. is not to interfere with heliligerenta, such being the rights of the U.S. No solicitude was felt until Parliament framed an act to provide for the enlistment of a foreign Legion. It was a matter, therefore to find persons engaged in the U.S. in this business. The ordinary steps were immediately taken to arrest and purples the parties concerned. The matter acquired additional importance by a disclosure of the fact that these enlistments were proceeded upon by a plan delistments were proceeded upon by a plan devised by official authority.

Attentioning that recruiting stations had been established in the United States by the complicity of the Brid-h civil and military officers, he says these considerations and the act that the cause of complaint was not a mere casual occurrence, but a deliberate design, conducted by responsible

THE PRESIDENT'S MESSAGE.

We have made arrangements for receiving by telepraph si the earliest moment after its delivery in Washington, the forthcoming Message of President Pizece. It will be issued, as usual, to our subscribers immediately upon its be ing put in print here, and will be furnished in extras to on friends of the Country Press, at \$1,50 per hundred copies Orders for extra copies should be addressed, as soon a possible, to the Sentinel Office, Milwaukee.

The Governorship .- The Contest. In answer to numerous queries upon the sub ject of the contest for the Governor-hip, we derire to say that such contest, in proper form be fore the Supreme Court, will be made, and made vigorously. Some of the ablest counsel in the State are retained, and will present the case to the Court at a proper time. We have not a shadow of doubt that such facts will be proven as to satisfy, not only the Court, but every condid mun in the State that Cours Basitrony is the legally elected Governor.

We understand very well the game that is placed by the opposition just now, in treating the proposed contest as a triffe, and we make these statements in order that all who feel an interest in having the will of the people carried out may be ready to aid in every proper way to bring out the truth. The post of Governor, with all the other officers of an opposite Political faith, is not to desuable, nor is the subsix a sufficient object. to induce Mr. Bashford to a rult ons expense to ontain the sext; and there is therefore no hesitation in calling upon his friends to contribute to the cost of the contest.

The Mails-The Lake Shore R. R.

The Board of Trade held an adjourned meet ing, Saturday afternoon, to bear the report of the Committee, appointed to inquire into the differences between the Lake Shore R. R. and the Post Office Department, which have led to the derangement and delay of the Eastern Mail for some time part. The Committee, in the discharge of their duty, proceeded to Chicago, possessed themselves of the facts, so far as they could obtain them, and submitted the result of their inquites in a written report. This was, substantially, that the Post Office Department and not the Rulroad Company, is in fault, the company sation offered for the transportation of the mails being wholly inadequate to the service performed. The Report recommended therefore that a mem orial, signed by our citizens, be transmitted to Washington, setting forth this fact and urging a more liberal rate of pay to the Lake Shore Rail Road. Meantime, the public must bear with the inconvenience of the present mail arrangemen as best they may.

We doubt whether the P. O. Department will lend a favorable car to the proposed memorial. They have offered the Lake Shore R. R. as much as they pay other Western Companies for mai service, and are not likely to pay the increased price-extertionate as the Government deems in -which the Company demands. On the other hand the Company, we hear, insists on \$150 per mile as their altimatum. Thus, between the Department and the Company, our whole business public suffer the most serious inconvenience This should not be, and the Railroad Company in our judgment, greatly mistakes its policy, not its duty, in besitating to carry the mails o the best terms it can get. Corporations owe much to the public, and the safe and speedy transportation of the mails, at reesonable rates, is one of the duties especially incumbent upon Rail Road Companies, and one, too, which they ought cheerfully to perform, not only as a matter of dation, but as a suitable return for the privileges and immunities which they eujoy.

Bates of Freight on the M. & M. B. R. Some time since the Madison Potriot published a paragraph, stating that sundry merchants of that place were in the habit of getting their good by way of Chicago and the Beloit and Madisor. road, because the rates were less than by this city and the Mil. & Miss. R. R.

Mr Baconean, Superintendent of the Mil. 8 Miss. R. R., replies, aisproving the alleged indivisual charges of high rates, and further says The M. & M. R. R. Co. charge for light articles of merchandize to Madison—95 miles—30 cents

and for heavy 25 cents per 100 fts.

The Change and Galena to delarge to Beloit.
93 and s. 25 and 25 cents per 100 lbs, and to Alton. 1.12 miles, 30 and 25 cents; at both of these Joints this road comes in comparition with the M & M, road, which explains the little difference in favor of that road. For instance, at Novada, on their main line, 114 miles, they charge 34 and 20 cents.

34 and 20 cents.

The College and Eurlington R. R. charges, from Chicago to Arlington, 97 miles, an ets. For first class and 25 cts. for second class treight per 100 lbs. The same, substantially, as our charges.

The Buffalo & Eric R. R. charge, from Buffalo C. Proceedings of the Procede of the Proceedings of the Pr to Ene, so miles, 25 and 20 ets. per 100 lbs., for first and second class articles. In drawing a comparison with this roul, it must be borne in a mid that it is a part of a great through route with a

great deal of competition.

And so I could multiply roads, were their tariffs at command, which would show that the Milwankee & Mississipp R. R. charges were not unreasonable, and that they would compare tayous w ten all the circumstances are considered with nav or the western roads, Resigned.-We learn that Mr R. W. FORDER,

who for some time past has discharged the duties of Superintendent of the Milwaukee and Watertown Rad Boad, has recently resigned that post and taken a contract, under Messis Cook & Lockwood, on the Southern Wisconsin Rail Road Mr. Fower a has been invited to take the Saperintendency of the Ohio and Mississippi Rail Road, but desiring to make his home in Wisconsin he has declined this advantageous offer. Mr. Fowler has all the energy, experience and determination I led to this deliberate murder. Like many other, requisite in a first rate Railroad Superintendent, or Contractor, and we are rejoiced to know that at the foundation of it Spencer was in the habhe intends to abide among us.

Social Festival at Beauer Day --- We are indobted to Mesers. Hull & Swarton, of the Benver Dam Republican and Sentinel, for an invitation to an Oyster Supper with which they propose to regale their friends and pations, on the occasion of moving into their new once. The entertainment comes off on New Year's Day, and will no doubt be a pleasant one. Were the La Crosse R. R. running to Beaver Dam, as it will be cre long, we should make an effort to attend.

A Signt for a Poor May -- The steamer ghany yesterday brought up from Cincinnati, over thirty lons of silver, worth about \$1,100,000. It was under the care of the Adams' Express Co. pany, and, we believe, was destined for Philadelphia. We observed a number of poor follows, who looked as if they didn't feel altogether certain that they would have a turkey for dinner to-day, eyeing the boxes containing the argent with very wistful countenances.—Pittsburgh Post, 25th.

NAVIGATION SUSPENDED .- The river at this point is full of ice. Navigation above is entirely suspended and no boars passed between this city and St. Louis yesterday. We learn that the ice obstructs a evigation almost entirely at St. Louis, and it is in the constructs and it is the constructs. Spencer; although he could, as the friends of and it is with the greatest difficulty that a crossing can be effected.—Alton Courier, 27th.

Hooz.—Prices have considerably fallen off since our last quorations, and the number received at our packing houses is small in consequence. A few lots came in yesterday and the day before, bought at previous cases. The best offers which bought at previous rates. The best offers which we now hear, are \$5 for logs weighing two-hundred and upward net.—Beardstown Minotan, 20th. Before Chaton Watworth, Esq., Police Just'ce.

But to that little outcast, that werse off than orphan boy, what a history belongs! of the saving may be verified by the 'shooting awair action, or at least brought to light by it, is worthy of note. When the officers were searching for Spencer on Mounlay night, in the back part of the house or kitchen they found a boy about son years of age haddled up in a corner on a pile of rags, and scantily covered with some of them, his teeth chantering with cold, and his limbs all but frozen. None of the officers who were searching there knew that boy or his history. But to that little outcast, that worse off than orphan boy, what a history belongs! He is the child of a contracted villain, and a contracted presistints, of the very worst dys; both father; and mother are now in the State Prison of this State, sent there such for a term of ter years, for an offence of the most revolting nature. Law-een and his wife, or Old Melica, as ahe is called, are the names of the parents of that boy. Born of such payants and both parents had led lives of the most shameful an-ture from his lafancy to the time they were convicted of that crime which made them the felons they now are; then left in the charge by his parants of two more oriminals the infant immate of a Brothel, and there being brought up to winces daily the scene of sin and crime that there take place; trained to be a villain from his very associaons in his childhood, what can society expect from a State Prison on the Stallows will be his fate in his manhood This boy, lowly as he is, unfortunate, worse than desert-ed child or orphun, may yet be reclaimed; and if we shall

only object in writing it—of seeing him transferred from that den of infamy to one of our Orphan Asyluma, we shall be thankful that we called public attention to the matter. The long and now onted delay in the organization of Congress and the consequent hindrance to the public business begin to excite the attention and provoke the aumadversion of the presss and the public. The cause of that delay is to be found in the factious course of a small minority of the members who, powerless to elect a Speaker of their own peculiar faith, will neither vote for the Republican, or Democratic Candidate, nor unice with the Republicans in the adoption of the Plurality vote, which would ensure a choice at the first ballot taken. That the Emperor of Russia will accept these That the Emperor of Russia will accept these propositions can hardly be doubted. By so doing, he will preserve the honor of his realm, for he cannot successfully war with the Allies with Austria also against him. The contest has already told fearfully on Russia. Her resources of nen and money are nearly exhausted, and, dis-guise it as they may, the Russian people, like the English, would haif the return of peace with ac-clausations of delight. Should peace be conclud-ed, Lord Palmerston's resignation of the Premi-ership is possible, and, in that case, an immediate settlement of all the existing questions of dif ference between the United States and this country, would probably follow, and cordial relations thus be rectored among the leading nations of the enith.

The distinguished party at whose instance the foregoing was written, says, in a hasty note: have requested —— to write you in regard to the probable termination of the war, but even he not permitted to know the almost certainty of that event, and our press is strangely befogged up-on the subject."

Humbug! The "Democracy" of Wisconsin had no more idea of endorsing "Pierce and Nebraska" and "Barstow and the Balance," by their vote at the recent election, than they had of ratifying the choice of Louis Napoleon as Em. peror of France. Two ideas controlled their vote -opposition to the Maine Law and hostility to Know Nothingism. But for these side issues " the administration, stare and national," would not have received the faintest ahadow of an endorsement from "the Democracy of Wisconsin.
